

Where is your home losing heat and costing you the Earth??

We can help you find out

West Malling Parish Council has loan of a thermal imaging camera during January 2025. If you would like to find out where your home is losing heat we can arrange to visit and help you survey your home.

The results should tell you what improvements would make the most difference to your thermal efficiency. If you would like us to arrange a visit to carry out the survey with you, contact the Parish Office, give us your name, address, phone and email if you have one. We will contact you to arrange a convenient day in January to do the survey.

Before the survey, you need to have your heating on for a few hours. You will be visited by two members of the Parish Council who will need access to both the inside and outside of your home. Please note we are not professional surveyors. The photos taken during the survey will be your property and we will email you the key images soon after the survey. We cannot offer financial help for remedial work identified but will seek to signpost you towards any government or other grants. This is a pilot programme to find out demand from residents in the Parish for this service.

Contact the Parish Clerk, Claire Christmas at WMPC office at The Clout Institute 9 The High St, West Malling ME19 6QH
